

# Improving the Management of HIV Disease®: An Advanced CME Course in HIV Pathogenesis, Antiretrovirals, and Other Selected Issues in HIV Disease Management

## Registration Opens for Spring 2018 IAS–USA HIV Management Courses

The [International Antiviral Society–USA \(IAS–USA\)](#) has opened registration for the regional HIV courses on its spring 2018 CME schedule. These courses are designed for clinical decision makers, such as physicians, nurse practitioners, and physician assistants, who are actively involved in the medical care of people with HIV infection and who:

- have a solid, working knowledge of HIV disease management
- provide comprehensive or specialty care for patients with HIV infection
- are currently active in HIV research

The courses are also relevant to registered nurses, registered pharmacists, and other health professionals. For information or to register for any of them, click on the “Register” button beside each course listing.
